WOA Community aligns with world leading UK Finance Education programme

Brussels – 12 Feb 2019

World of Open Account Community Members now have full access to the UK Finance Distance Learning Programme on Invoice Finance and Asset Based Lending.

The UK is the world's leading market for Invoice Finance solutions and has a long-standing tradition in educating its Industry professionals. The importance of skills and knowledge is widely acknowledged and understood by Industry participants as key to delivering successful and sustainable business.

WOA is delighted to advise that Community members now have full access to the world class e-learning programme developed by UK Finance on the same preferred terms as UK Finance Members.

The programme of available courses takes candidates from Introductory through Certificate to Diploma levels, ensuring that all participants have in-depth knowledge and understanding appropriate to their role, position and potential.

The range of subject material is comprehensive and includes all the key elements required to develop a proper understanding of the Industry, its solutions, applications and risks.

Competitively priced, courses are designed to give a real understanding of the Industry and unlike some other courses available, are not focused on any one particular business model.

For more information and to find out how to be part of this new wave, please see the [WOA website here](#) or get in touch via info@woa.community.
